PERSONAL PROJECTS

SmartCare
- Developed an integrated HMS for managing patient records, appointments, billing, and medical imaging, improving hospital efficiency and patient care.
- Language: HTML,CSS, JavaScript
- GitHub Link: https://github.com/KaranAgravat/SmartCare

WellCare
- Developed a user-friendly platform for appointment booking, medical record management, and expert healthcare advice, with secure access and hospital details. Integrated Google Maps for easy navigation, ensuring better healthcare accessibility, even in emergencies.
- Language: Core PHP,SQL, JavaScript, jQuery ,Bootstrap, HTML,CSS
- GitHub Link: https://github.com/KaranAgravat/wellcare

Helperland
- Developed a web-based platform enabling customers to book and review cleaning services, while service providers can accept and complete jobs. Implemented features for customer–provider interaction (favourite/block), and built an admin dashboard for managing payments, refunds, and user activities, ensuring a secure and user-friendly experience.
- Language: Core PHP,SQL, JavaScript, jQuery ,Bootstrap, HTML,CSS
- GitHub Link: https://github.com/KaranAgravat/Helperland

JobPortal -Website
- The Job Portal Website is a web-based platform developed in ASP.NET with C# that functions as an online job marketplace connecting job seekers and employers . It provides an intuitive interface where users can search for jobs , view job details , and apply online
- Back-End: ASP.NET with C# Frontend: HTML, CSS, Bootstrap Client-Side Scripting: JavaScript
- GitHub Link: https://github.com/KaranAgravat/JobPortal-Website-in-ASP.NET-Csharp-master

SKILLS

HTML C Language CSS C# DBMS
JavaScript PHP MySQL OOP
Python(Basic) Dot Net

ACHIEVEMENTS

Come up with a new idea that improved things

Identified a problem and solved it

Trustworthiness

Teamwork

50 day's leetcode badges

AI Intel Summer Internship

Organized events as main coordinator

CERTIFICATES

Code Blooded
Successfully completed this coding challenge, demonstrating problem-solving and algorithmic skills.

Code Relay
Participated in this team-based coding competition, showcasing collaboration and coding efficiency.

Scratch the Code
Completed this coding event, excelling in debugging and logical problem-solving.
